Paul Bengtson indicated he like the approach outlined in the modified set. Al Gobeille provided additional information that the GMCB received at their Advisory Committee meeting earlier in the day. The GMCB's Advisory Committee noted that measuring patient satisfaction is a challenge and that sometimes measurement incentivizes people to engage in bad practice. Additionally, the GMCB's Advisory Committee emphasized that there is a process improvement component to each measure. Lila Richardson added that the GMCB's Advisory Committee had a high level discussion about measures and that the QPM tried to not include measures that would cause unintended consequences. Harry Chen provided a handout to the Core Team demonstrating Vermont's trends in both diabetes and childhood obesity and requested the Core Team consider including one of those two measures in the payment category. Anya requested that Pat Jones provide more background on these two measures. The Core Team discussed these two measures. The Core Team then solicited public comment on the measure set:

Attachment 4a - VHCIP Finance Memo

To: Core Team

Date: 10/14/14

Re: VHCIP Financial Update and Request for Approval of SIM Funding Actions

I am requesting Core Team approval for one SIM funding action:

1. Proposal to release an RFP for services in support of the HIE/HIT Work Group. Cost: \$120,000. December 1, 2014-November 30, 2015

REQUEST #1- Type 2 Proposal to release an RFP for services to support the HIE/HIT Work Group for an amount not to exceed \$120,000:

I request that we release an RFP to provide support to the HIE/HIT Work Group for Year Two of the project. Up until now, the HIE/HIT Work Group has borrowed contractor support from within DVHA and that contracting mechanism will no longer be available in 2015. This RFP replaces that existing support.

Proposal Summary:

Request to release an RFP to support policy development, funding decisions and support the HIE/HIT Work Group in carrying out their Charter and Work Plan. Specifically, the Contractor will perform: research and analysis, document development, meeting facilitation, assist the work group staff in carrying out the work plan approved by the work group, and assist the staff with any sub-groups of work groups.

This contractor will support VHCIP's goals because it provides direct assistance to one of the project's work groups. The hope is to identify a contractor who is familiar with Vermont's health data infrastructure as well as the Vermont Health Care Innovation Project.

Scope of Work:

- Provide research to support decisions made by the work group.
- Provide Subject Matter Expertise in the area of Health Information Exchange, Health Information Technology and Health data.
- Provide documents to support decisions made by the work group.
- Provide contract management support for the HIE/HIT Work Group's major funding initiatives including, but not limited to: ACTT Project, Population Health ACO project, and Telemedicine.
- Assist the work group staff in carrying out the work plan approved by the work group.

-

Recommendation: Release and RFP to perform work in support of the HIE/HIT Work Group. The total project cost is TBD, but the HIE/HIT Work Group has \$120,000 available to it within the VHCIP budget. The term is December 1, 2014-November 30, 2015.
