

***VT Health Care Innovation Project  
Practice Transformation Work Group Meeting Agenda***

August 2<sup>nd</sup>, 2016; 10:00 AM to 12:00 PM

AHS - WSOC Oak Conference Room, 280 State Drive, Waterbury, VT

Call-In Number: 1-877-273-4202; Passcode 2252454

Item #	Time Frame	Topic	Relevant Attachments	Vote To Be Taken
1	10:00 – 10:10	<b>Welcome &amp; Introductions; Approval of Minutes</b>  Deborah Lisi-Baker and Laural Ruggles	<b><u>Attachment 1:</u></b> June Meeting Minutes	Yes (approval of minutes)
2	10:10 – 11:10	<b>Medicaid Pathways Update</b>  Selina Hickman	<b><u>Attachment 2:</u></b> Medicaid Pathway Integrated Designs	
3	11:10 – 11:40	<b>Identifying and Addressing Practice Transformation Challenges and Barriers</b>  Pat Jones and Erin Flynn	<b><u>Attachment 3:</u></b> Opportunities/Challenges/Barriers Table	No
4	11:40 – 11:55	<b>Project Updates</b> <ul style="list-style-type: none"> <li>• <b>Integrated Communities Care Management Learning Collaborative</b></li> <li>• <b>Core Competency Training</b></li> </ul> Pat Jones and Erin Flynn		
5	11:55 – 12:00	Wrap-Up and Next Steps; Plans for Next Meeting		

# Attachment 1: June Meeting Minutes

**Vermont Health Care Innovation Project**  
**Practice Transformation Work Group Meeting Minutes**  
**Pending Work Group Approval**

**Date of meeting:** June 7, 2016; 10:00 AM to 12:00 PM; Red Oak Room, State Office Complex, 280 State Drive, Waterbury, VT

Agenda Item	Discussion	Next Steps
<p><b>1. Welcome, Introductions</b></p> <p><b>Approval of minutes</b></p>	<p>Deborah Lisi-Baker opened the meeting at 10:05.            Roll call attendance was taken and a quorum was not achieved.</p>	
<p><b>2. Program Updates:</b></p> <ul style="list-style-type: none"> <li>• Operational Plan Submission</li> <li>• CMMI Site Visit</li> <li>• Core Competency Training</li> </ul>	<p>Georgia Maheras provided the following programmatic updates:</p> <ul style="list-style-type: none"> <li>• Operational Plan Submission: The VHCIP Performance Period 3 Operational Plan was submitted to CMMI on April 28, 2016. Thanks to many staff and stakeholders for their contributions to the over 150 page report!</li> <li>• CMMI Site Visit – May 2 and 3, 2016: CMMI sent three representatives to Vermont in early May for two days of meetings to discuss the status of the VHCIP project and plans for the final year of the Grant.</li> </ul> <p>Erin Flynn provided the following update on the Core Competency Training Series</p> <ul style="list-style-type: none"> <li>• June 16 and 17, 22<sup>nd</sup> and 23<sup>rd</sup>: the next round of trainings will be occurring. The focus will be on cultural competency and universal accessibility. There are still some openings for these next trainings – please visit the website for more information and contact Holly Stone at <a href="mailto:Holly.Stone@partner.vermont.gov">Holly.Stone@partner.vermont.gov</a> to sign up!</li> <li>• There are 240 spots available for the series and a rough estimate is that approximately 85-90 different organizations are participating in this statewide training series.</li> </ul> <p>Joelle Judge provided an update on the upcoming Provider Subgrant Symposium: On June 16<sup>th</sup>, the VHCIP will convene all of the Provider Sub-grantees at the Capitol Plaza in Montpelier. The event starts at 8 am and runs through 12:30 pm. Sub-grantees will be making short presentations to highlight case studies and best practices and lessons learned throughout their projects. Many projects will also feature poster or table displays with more information, papers and other materials available for review.</p>	

Agenda Item	Discussion	Next Steps
<p><b>3. Update on ICCMLC program</b></p>	<p><b>Erin Flynn, Jenney Samuelson and Pat Jones</b>  <b>Integrated Communities Care Management Learning Collaborative (ICCMLC)</b></p> <p>Erin Flynn began by providing a recap of progress to date, highlighting the work group’s goals and how the ICCMLC was envisioned to help achieve these goals. For example, although Vermont’s delivery system reforms have strengthened coordination of care and services, people with complex care needs sometimes still experience fragmentation, duplication, and gaps in care and services. The learning collaborative was envisioned as a way to address these concerns. She described the near and long-term goals of the project, with the overall intent to mirror the Triple Aim of improving the experience of care, improving the health of the population and reducing the cost of health care.</p> <p>Sam Liss asked noted that a risk of decreasing health care costs could be decrease quality, or even rationing of services. Pat Jones indicated that the quality measurement component is key to the State’s value based purchasing payment reform initiatives. Dale Hackett also commented that it is hard to measure certain impacts, particularly around medicine and pharmacy, where the delivery of actual medicine is critical to peoples’ health. Jenney and Erin noted that one of the outcomes that is beginning to emerge through the ICCMLC is improved communication across an integrated care team so that providers aren’t prescribing conflicting medications, as an example.</p> <p>Ben Watts noted that the Department of Corrections is currently exploring opportunities to improve outcomes for people being discharged from corrections facilities by connecting them to community services and supports immediately upon discharge. He also noted that it may be important to consider the ‘Quadruple’ Aim, rather than Triple Aim, with the 4<sup>th</sup> leg being staffing.</p> <p>Pat Jones also noted that there is always the option of referring folks to their local community health team.</p> <p>Erin next discussed the framework of the ICCMCLC. The learning model leverages the Plan, Do, Study, Act (PDSA) quality improvement model to facilitate rapid-cycle learning and implementation. The Learning Collaborative has utilized both in-person meetings and webinars to engage participants on a monthly basis.</p> <p>Jenney Samuelson discussed the workflow that is being used by the Learning Collaborative, and referred to the colorful “box diagram” included in the handout (noting that the order of interventions may vary). The local community teams are using data to identify patients with complex needs who might benefit from team-based care. Once identified, they then reach out to begin the process of engaging the individual such that the care is person-directed. Next providers use tools to document a person’s story, goals and care team. These tools include things like Camden Cards to identify and individual’s goals, and eco-mapping to determine who is on an individual’s care team. Next a record review tool is used to do a 10-year look back into a person’s medical record. A root cause analysis is done to help categorized that information in four quadrants (medical, psych, social and</p>	

Agenda Item	Discussion	Next Steps
	<p>systems) that are contributing to a person’s health. Then an initial “care team huddle” or organizational meeting is convened followed by the identification of a lead care coordinator, a cross organizational care team conference, and finally the development, implementation and ultimately updating of shared care plan over time.</p> <p>Jenney also offered an overview of how the “community collaboratives” and the ICCMLC interface:</p> <ul style="list-style-type: none"> <li>• Community Collaboratives (CCs - often known as UCC, RCPC) have been established in each HSA and include health care, social service, and community based organizations.</li> <li>• CCs set community health priorities based on core measures and priorities for each area.</li> <li>• CCs have selected the Learning Collaborative as a performance improvement project to address priorities and support cross-organization integrated care management.</li> <li>• CCs are poised to sustain the work at the end of VHCIP with support from the Vermont Blueprint for Health and the ACOs.</li> </ul> <p>The group next discussed the tools that are being used to support the ICCMLC model and workflow described above, and noted that examples of these tools can be found in the materials packet.</p> <p>Dale asked if the tools will ultimately allow for someone to be able to ‘read’ the person’s story based on the completion of the tools. Jenney and Pat both echoed that this is one of the most important pieces of the concept of team based care and person directed care that is coming out of the Learning Collaborative – learning and telling the story of the person, in their own words. Bev Boget also asked how providers would know whether and where to look to view a shared care plan and where it ultimately resides. Jenney offered one example in which a community have embedded the shared care plan in the EMR in the local hospital’s emergency room. She also noted how in the absence of common accessible electronic systems for all providers across a community currently, learning collaborative teams have been sharing documents in less high tech ways including secure email, fax and hard copy. Jen also noted that we are often seeing the lead care coordinator take responsibility for ensuring that the shared care plan is up to date and accessible to all members of the care team.</p> <p>Next, Pat Jones presented on the program evaluation strategy for the ICCMLC. The first component of the evaluation strategy includes process measures, starting with the number of people enrolled in these pilot projects (over 200 families are currently involved!) and also recording metrics around the number of individuals who have a lead care coordinator identified, root cause analysis completed, care team identified and a share care plan completed. These measures are being reported by the participated communities on a bi-monthly basis.</p> <p>The project is also fielding two surveys to assess 1) the patient experience of care and 2) the provider experience within the team-based care construct.</p>	

Agenda Item	Discussion	Next Steps
	<p>The following outcome measures are being explored for potential measurement of the outcomes of the project:</p> <p>Emergency Department Utilization:</p> <ul style="list-style-type: none"> <li>• Potentially Avoidable ED Utilization</li> <li>• Outpatient ED Visits (HEDIS®)</li> </ul> <p>Inpatient Utilization:</p> <ul style="list-style-type: none"> <li>• Inpatient Discharges (HEDIS®)</li> <li>• All-Cause Readmission (HEDIS®)</li> <li>• Rate of Hospitalization for Ambulatory Care Sensitive Conditions (AHRQ PQI Chronic Composite)</li> </ul> <p>Cost/Resource Utilization</p> <ul style="list-style-type: none"> <li>• Total Expenditures Per Capita</li> <li>• Total Resource Use Index</li> </ul> <p>Primary Care Encounters</p> <p>The claims based outcomes measurement strategy is still being finalized, however as the number of individuals involved increases, the likelihood of reaching statistically significant results also increases.</p> <p>Bev Boget asked if it has been difficult to engage people in the collaborative. Pat indicated that almost all of the people who have been invited to participate are participating and staying engaged. She also noted that Luran Hardin, who is one of the key faculty members, follows people for life and uses the term “relationship for life” to describe the work of the lead care coordinator. Jenney added that the goal of the ICCMLC was not to create a new case management program to enroll people into and to graduate people from, but rather to improve care delivery and outcomes by enhancing the “teamness” of interagency care teams through an integrated care delivery model.</p> <p>Jenney then provided an overview of the next in person learning session: Keeping a person’s shared plan of care alive under dynamic and challenging situations.</p> <p>Miriam Sheehy from OneCare Vermont added that there is a great deal of synergy across the state and this work is having impact on the outcomes that the ACOs are seeing, including the inclusion of these tools into the Care Management Tool kit that OneCare Vermont uses for their provider network.</p> <p>Jenney noted that many of the participating organizations are using these tools in a much broader context. As a notion of sustainability, this is encouraging to see how the local teams are including this learning systematically into their work on an ongoing basis.</p> <p>Bev Boget asked if providers are getting paid for the various interventions being implemented under this work. Jenney noted that it’s actually saving time and increasing both efficiency and satisfaction for those who were already trying to do care coordination. As well, it is being considered for inclusion in the all-payer model and</p>	

Agenda Item	Discussion	Next Steps
	<p>payment models as well. In the meantime, providers have found ways to make this model work for the time being, for example the are certain billing codes that can be used to attend a care conference, and conferences can be held on site for Doctors or specialists who are very strapped for time, or providers can call in for just a short portion of the conference if needed. This is allowing the communities to come up with innovative ways to work with the system in the present time while also planning for the kinds of changes that need to be made to the system overall.</p> <p>Bev asked about sustainability and the participation of state agencies like DVHA. Georgia Maheras responded that DVHA has been included all along, as well as GMCB and others. The makeup of the VHCIP Core Team includes representatives from DVHA, GMCB, DAIL, AHS and AOA. We will be convening a smaller group to work on more sustainability in detail.</p>	
<p><b>4. Review &amp; Discuss 2016 Practice Transformation Workgroup Work Plan</b></p>	<p>Deborah Lisi-Baker reviewed the Practice Transformation Work Group 2016 Work Plan. She noted that the group had expressed interest in periodically reviewing the work plan and receiving updates on tasks as the projects move forward.</p> <p>Bev Boget suggested adding the names of lead people across the activities in the work plan. Georgia Maheras noted that the <a href="#">Year 3 Operational Plan</a> does have this information in section J, as well as in the monthly status reports that are posted to the <a href="#">website here</a>.</p> <p>Deborah noted that with respect to Home and Community based rules, AHS is seeking input to helping to design the conflict free case management rules. Legal aid is also watching for further development of these standards and Deborah highlighted the need to ensure that these are worked into the system as things like the All-Payer waiver and the Medicaid Pathway are defined and implemented. Dale also noted that there is importance to the way that these models are communicated and also worked into the planning around sustainability.</p>	
<p><b>5. Next Steps</b></p>	<p>The next meeting is Tuesday, August 2, 2016 from 10:00 am – 12:00 pm Please note: <b>The July meeting canceled.</b></p> <p>Red Oak Conference Room, 280 State Drive, Waterbury This is in the new State Office Complex</p> <p>(New Building - the meeting space is located on the 2nd floor above the main entrance) Call-In Number: 1-877-273-4202 Conference ID: 2252454</p>	

## VHCIP Practice Transformation Work Group Member List

Tuesday, June 07, 2016

Member		Member Alternate		Minutes	Organization
First Name	Last Name	First Name	Last Name		
Susan	Aranoff	Gabe	Epstein		AHS - DAIL
		Bard	Hill		AHS - DAIL
		Clare	McFadden		AHS - DAIL

Attachment 3:  
Opportunities/Challenges/  
Barriers Table

## Identifying and Addressing Practice Transformation Challenges and Barriers

Opportunities Identified in Care Management Presentations and Inventory Survey Responses	Responses from VHCIP and Others
Increased process standardization, including increased use of <b>common care management tools</b>	<ul style="list-style-type: none"> <li>• Learning Collaborative</li> <li>• Vermont Model of Care</li> <li>• Core Competency Training</li> <li>• Care Management Toolkit</li> </ul>
Creation of an organizational mechanism to <b>coordinate the “family of care coordinators”</b>	<ul style="list-style-type: none"> <li>• Learning Collaborative</li> <li>• Vermont Model of Care</li> </ul>
Increased development and use of <b>IT resources to coordinate care management activities</b> ; improved communication and relationships across an integrated care team supported by <b>health data infrastructure and exchange</b> ; increased use of a <b>shared data set</b> to coordinate care and measure effectiveness	<ul style="list-style-type: none"> <li>• EQHealthworks (State of Vermont)</li> <li>• Patient Ping (event notification)</li> <li>• Care Navigator (OneCare)</li> <li>• Accessing Care Through Technology (ACTT)</li> <li>• ACO Gateways</li> <li>• Telehealth Initiatives</li> </ul>
Increased <b>opportunities for care managers to build their skills</b> through initiatives to share best practices and learn new skills	<ul style="list-style-type: none"> <li>• Core Competency Training</li> <li>• Learning Collaborative</li> <li>• Care Management Toolkit</li> </ul>
Improved <b>identification of and outreach</b> to people with complex needs, <b>increased engagement of individuals in their care</b>	<ul style="list-style-type: none"> <li>• Learning Collaborative</li> <li>• Vermont Model of Care</li> <li>• Core Competency Training</li> </ul>
<b>Insufficient funding or lack of reimbursement mechanisms</b> to support care coordination functions, leading to challenges in recruiting and retaining qualified staff	<ul style="list-style-type: none"> <li>• ACO Shared Savings Programs</li> <li>• Medicaid Pathway</li> <li>• Potential All Payer Model</li> </ul>
<b>Overcoming privacy barrier</b> to sharing information across an integrated care team	<ul style="list-style-type: none"> <li>• DAIL and Designated Agency Templates</li> </ul>

## Identifying and Addressing Practice Transformation Challenges and Barriers

Opportunities Identified in Care Management Presentations and Inventory Survey Responses	Responses from VHCIP and Others
Challenges <b>engaging providers</b> across the continuum of care <b>in an integrated care team</b>	<ul style="list-style-type: none"> <li>• Learning Collaborative</li> <li>• Selected Provider Sub-grants</li> <li>• Unified Community Collaboratives</li> <li>• Accountable Communities for Health</li> </ul>
...improve the rate of implementing CMMI's key care management functions... <b>educational opportunity to train care managers</b> ...on these key care management functions.	<ul style="list-style-type: none"> <li>• Core Competency Training</li> </ul>
...establish <b>more formal and structured relationships</b> to create stronger ties for providing care management services across care settings and community service organizations, and <b>provide opportunities to develop truly integrated delivery systems</b> that include organizations traditionally on the periphery of traditional health care delivery.	<ul style="list-style-type: none"> <li>• Learning Collaborative</li> <li>• Unified Community Collaboratives</li> <li>• Accountable Communities for Health</li> <li>• Potential All Payer Model</li> <li>• Medicaid Pathway</li> </ul>
...opportunity to provide <b>additional training on implementing Team Based Care.</b>	<ul style="list-style-type: none"> <li>• Learning Collaborative</li> <li>• Core Competency Training</li> </ul>
Ensuring the provision of...[certain care management] <b>services</b> , when appropriate, <b>for people being discharged from skilled nursing facilities</b> could result in fewer readmissions, which is a very important focus for cost containment	<ul style="list-style-type: none"> <li>• ACTT UTP Project</li> <li>• Learning Collaborative (upcoming session on transitions in care)</li> </ul>
<b>Examining the roles that</b> ...[certain] <b>disciplines could play in improving care management, and recruiting additional FTEs</b> if warranted, could impact resource allocation.	<ul style="list-style-type: none"> <li>• Workforce Work Group Demand Modeling</li> </ul>
